

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically start to both dump and release when the bumper release touches the side of a dumpster. As soon as unloading is done, the hopper could return to original upright and locked position. This particular piece of machinery also comes along with a cable that allows operation from the seat of the forklift to be able to have the choice of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper likewise has a blue powder coat finish to maintain durability.
